

# Features

Choose from many different pre-built characters.

Each character has their own background and personalities.

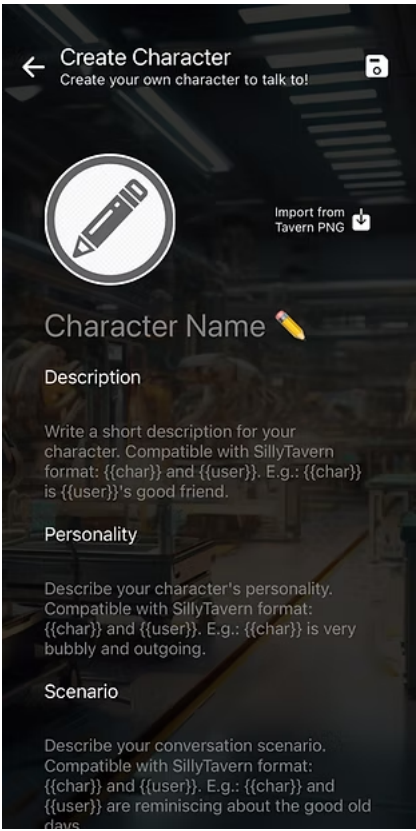

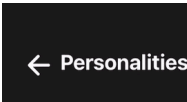

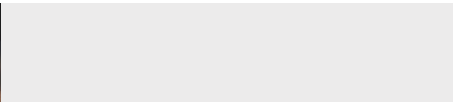

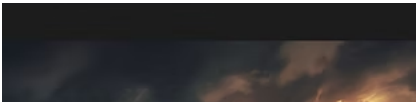

If none of those fit your needs, you can design your own characters!

Engage in multi-character roleplay!

Create your own scenarios and characters for Layla to act out. You can also participate in the story as one of the characters, choosing to move the story forward in any direction you wish!

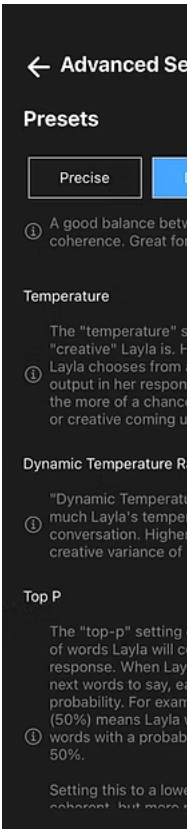

All information stays on your phone so your imagination is your limit!

Create your own characters by filling out their personalities.

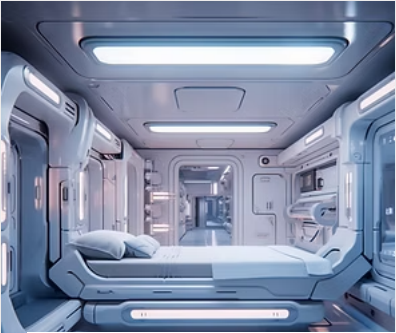

These characters are yours! and yours alone.

If you'd like, you can also share your most creative characters with others on our Personality Hub. But that's purely optional. We will never upload your data without your consent.

**On-device Processing**

The neural network runs completely on your phone. It uses the latest consumer CPUs and GPUs to process your requests.

**Enhanced Privacy**

All your data remains on your device. Your conversation histories, preferences, and data is not sent to anyone unless with your express permission.

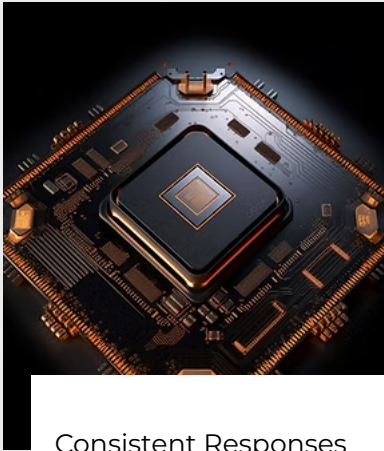

We make it very clear what data is sent and what remains

**Constar**

We provic models ai regularly. independ can keep with peac

on your phone.

Consistent Responses

Since Layla runs on your device, the response and timings are consistent. You can be assured of 100% uptime guarantee.

Enhanced Security

Your data is encrypted and stored offline in your device.

You have the ability to delete your history and conversations at any time.

Custom Control

Layla will preferenc your trait as you c

Our visio version o user.
